Light Painting with the DAPL Photography Group and Photographer Don Mendenhall Monday, January 19 at 6:00 p.m. Library Community Room

Light painting results when a hand-held light source—usually a flashlight—is used in a dark room or outdoors at night to illuminate a subject. When you make a light painting, your camera is on a tripod with its shutter open for a timed exposure while you illuminate parts of the subject with the light. Photographer Don Mendenhall will show us how to create unique photographs using this simple technique. You are welcome to visit or join us!
