INDEPENDENT ACCOUNTANT'S COMPILATION REPORT

April 15, 2015

To the Town Board
Town of Vienna
DeForest, Wisconsin

We have compiled the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Vienna, Wisconsin, as of and for the year ended December 31, 2014, which collectively comprise the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

The management of the Town of Vienna, Wisconsin is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

As explained in Note 1.E. to the financial statements, management has not recorded governmental capital assets, net of accumulated depreciation and the associated depreciation expense on the government-wide financial statements. Accounting principles generally accepted in the United States of America require the presentation of capital assets, net of accumulated depreciation on the government-wide financial statements. The amounts that would be reported on the government-wide financial statements for the Town's governmental capital assets, net of accumulated depreciation and depreciation expense have not been determined.

Accounting principles generally accepted in the United States of America require that the required supplementary information as stated in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information has been compiled by us without audit or review and accordingly, we do not express an opinion or provide any assurance on it.

Management has not presented the Management's Discussion and Analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Town of Vienna

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2014**

Net change in fund balances - total governmental funds: \$ 9,743

Amounts reported for Governmental Activities in the Statement of Activities are different because:

This represents revenues which were recorded on the government-wide statements in the current year but will be accrued in the fund financial statements in subsequent years. (122,918)

Governmental funds report bond proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of bond principal as an expenditure. In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities. This is the amount by which repayment exceeded proceeds. 40,829

Some expenses reported on the Statement of Activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:

Adjustment for increase in compensated absences (3,401)

Change in net position of governmental activities \$ (75,747)

See accompanying notes and independent accountant's compilation report.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

1. Summary of Significant Accounting Policies

The accounting policies of the Town of Vienna, Wisconsin conform to accounting principles generally accepted in the United States of America as applicable to governmental units.

Reporting Entity

This report includes all of the funds of the Town of Vienna, Dane County, Wisconsin. The Town provides the following services to its citizens: fire protection, public works, parks and recreation, water and sewer utilities, and general administrative services. The reporting entity for the Town consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based on criteria established by the Governmental Accounting Standards Board, the Town has determined that there are no component units.

See Note 12 regarding joint ventures.

A. Government-Wide and Fund Financial Statements

"Government-wide" financial statements are basic financial statements required for all governmental units. The statement of net position and the statement of activities are the two required statements. Both statements are prepared on the full accrual basis. In accordance with accounting standards for governmental units, the Town uses the modified accrual basis of accounting for governmental fund financial statements.

In addition, all funds in the fund financial statements are reported as governmental activities or fiduciary funds. The definitions for these types of activities are discussed in other portions of Note 1.

Finally, all non-fiduciary funds are further classified as major or non-major funds. In reporting financial condition and results of operations for governmental units, the standard concentrates on major funds versus non-major funds.

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The Town does not report any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers for services provided by a given function or segment and 2) grants and contributions that are restricted to meeting requirements of a particular function. Taxes and other items not included in program revenues are reported as general revenues.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

1. Summary of Significant Accounting Policies (Continued)

A. Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into individual funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets and deferred outflows of resources, liabilities and deferred inflows of resources, net assets/fund equity, revenues, and expenditure/expenses. In addition, all funds in the fund financial statements are reported as proprietary, governmental, or fiduciary funds. The definitions for these types of activities are discussed in other portions of Note 1.

Funds are organized as major funds or non-major funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type and
- b. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or proprietary fund that the Town believes is particularly important to financial statement users may be reported as a major fund.

The Town reports the following governmental funds:

General Fund - The general fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund. The general fund is considered a major fund.

Special Revenue Fund - Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. The Town reports the Utility District No. 1 and 2 funds as major funds.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

1. Summary of Significant Accounting Policies (Continued)
A. Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

The Town also reports the following fiduciary fund:

Agency Fund - Agency funds are used to account for assets held by the Town as an agent for individuals, private organizations, other governmental units, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The agency fund reported is the tax agency fund.

B. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recognized in the accounting period in which they are earned; expenses are recognized in the period incurred. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues when all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when both measurable and available. Resources are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to claims and judgments, compensated absences, and pensions are recorded when payment is due.

Property taxes are recorded in the year levied as receivables and deferred inflows of resources. They are recognized as revenues in the succeeding year when services financed by the levy are being provided. In addition to property taxes for the Town, taxes are collected for and remitted to the state and county governments as well as the local school district and technical college district. Taxes for state and other local governmental units billed in the current year for the succeeding year are reflected as due to other taxing units on the statement of fiduciary net assets. Taxes are levied in December on the assessed value as of the prior January 1.

Property tax calendar - 2014 tax roll:

Lien date and levy date	December, 2014
Tax bills mailed	December, 2014
Payment in full, or	January 31, 2015
First installment due	January 31, 2015
Second installment due	July 31, 2015
Personal property taxes in full	January 31, 2015
Tax sale - 2014 delinquent real estate taxes	October, 2017

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

1. Summary of Significant Accounting Policies (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

Intergovernmental aids and grants are recognized as revenues in the period the related expenditures are incurred, if applicable, or when the Town is entitled to the aids.

Special assessments are recorded as revenues when collected. Annual installments due in future years are reflected as receivables and deferred inflows of resources.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments, and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

The Town reports deferred inflows on its governmental funds balance sheet. Deferred inflows arise from taxes levied in the current year, which are for subsequent year's operations. For governmental fund financial statements, deferred inflows arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred inflows also arise when resources are received before the Town has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Town has a legal claim to the resources, the liability for deferred inflows is removed from the balance sheet and revenue is recognized.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

C. Budgets

A budget has been adopted for the general fund. Wisconsin Statute 65.90 requires that an annual budget be adopted for all funds. The Town may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two-thirds board action. Appropriations lapse at year-end unless specifically carried over. Budgets are adopted at the function level of expenditure.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

1. Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Equity

1) Capital Assets

Purchased capital assets are capitalized at cost or estimated cost in the government-wide statements. Contributed fixed assets are recorded at fair market value at the time received. The Town defines capital assets as costing more than \$5,000 and having an estimated useful life of more than one year. Infrastructure assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems were not capitalized prior to January 1, 2004.

Depreciation is recorded using the straight-line method over the estimated useful lives.

However, the Town does not have the original fixed asset historical costs necessary to record capital assets, net of accumulated depreciation and depreciation expense on the government-wide financial statements. Therefore, these amounts are not recorded or disclosed.

2) Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements. Payments for vacation and sick leave will be made at rates in effect when the benefits are used.

The entire amount of accumulated sick and vacation leave is estimated at \$25,204 at December 31, 2014.

3) Deferred Outflows and Inflows of Resources

Deferred outflow of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

Deferred inflow of resources represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

4) Allowance for Uncollectible Accounts

General fund accounts receivable have been adjusted for all known uncollectible accounts. No allowance is necessary at year-end. Delinquent real estate taxes as of July 31, 2014 are paid in full by the county, which assumes the collection thereof. No provision for uncollectible utility accounts receivable has been made in the accompanying financial statements because the utility districts have the right by law to place delinquent bills on the tax roll.

5) Long-Term Obligations

Proceeds of long-term debt issues not recorded as fund liabilities are reflected as "Other Financing Sources" in the operating statement of the recipient fund. Retirement of these issues is reported as an expenditure of the respective fund in the year in which the debt matures or is repaid, whichever is earlier.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

1. Summary of Significant Accounting Policies (Continued)
E. Assets, Liabilities, and Equity (Continued)

6) Fund Equity

In the fund financial statements, governmental fund balance is presented in five possible categories:

Nonspendable – resources which cannot be spent because they are either a) not in spendable form or; b) legally or contractually required to be maintained intact.

Restricted – resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws and regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed – resources which are subject to limitations the government imposes upon itself through formal action of the Town Board, and that remain binding unless removed in the same manner.

Assigned – resources neither restricted nor committed for which a government has stated intended use for a specific purpose. This intent can be expressed through the Town Board or through the Town Board delegating this responsibility to the Town Treasurer through the budgetary process.

Unassigned – resources which cannot be properly classified in one of the other four categories. Unassigned balances also include negative balances in the governmental funds reporting resources restricted for specific programs.

The Town would typically use restricted fund balances first, followed by committed resources and then Assigned resources, but reserves the right to selectively spend unassigned resources first and to defer the use of these other classified funds.

2. Cash and Investments

At December 31, 2014, the cash and investments consisted of the following:

	Carrying Value	Bank Balance	Associated Risk
Deposits in financial institutions	\$ 3,047,505	\$ 3,054,575	Custodial credit risk, interest rate risk
Total Cash and Investments	\$ 3,047,505	\$ 3,054,575	
Reconciliation to financial statements			
Per statement of net position			
Governmental activities	\$ 1,006,215		
Per statement of net position -			
Fiduciary Funds- Tax agency	2,041,290		
Total Cash and Investments	\$ 3,047,505		

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

2. Deposits and Investments (Continued)

Investment of Town funds is restricted by state statutes. Available investments are limited to:

- (1) Deposits in any credit union, bank, savings bank, trust company or savings and loan association which is authorized to transact business in this State if the time deposits mature in not more than three years;
- (2) Bonds or securities issued or guaranteed as to principal and interest by the federal government, or by a commission, board or other instrumentality of the federal government;
- (3) Bonds or securities of any county, drainage district, VTAE district, village, city, town, district or school district of this State;
- (4) Any security which matures or which may be tendered for purchase at the option of the holder within not more than seven years of the date on which it is acquired, if that security has a rating which is the highest or second highest rating category assigned by Standard & Poor's Corporation, Moody's investor service or other similar nationally recognized rating agency or if that security is senior to, or on a parity with, a security of the same issuer which has such a rating;
- (5) Bonds or securities issued under the authority of the municipality;
- (6) The local government pooled-investment fund as established under Section 25.50 of the Wisconsin Statutes;
- (7) Agreements in which a public depository agrees to repay funds advanced to it by the Board, plus interest, if the agreement is secured by bonds or securities issued or guaranteed as to principal and interest by the federal government.
- (8) Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- (9) Repurchase agreements with public depositories, with certain conditions.
- (10) Bonds issued by the University of Wisconsin Hospital and Clinics Authority.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in commercial paper, corporate bonds and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The Town has no investment policy that would further limit its investments choices.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Board would not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, the Town would not be able to recover the value of its investment of collateral securities that are in the possession of another party. The Board does not have an investment policy for custodial credit risk.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

2. Deposits and Investments (Continued)

Custodial Credit Risk (Continued)

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings deposit accounts and \$250,000 for demand deposit accounts. Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may be significant to individual organizations.

Fluctuating cash flows during the year due to tax collections, receipt of state aids and/or proceeds from borrowing may have resulted in temporary balances exceeding insured amounts by substantially higher amounts.

As of December 31, 2014, \$2,404,575 of the Town's deposits with financial institutions in excess of federal depository insurance limits and state deposit guarantees were exposed to custodial credit risk (uninsured/uncollateralized). The town had collateral with a market value of \$2,054,309 pledged in another bank's name leaving uninsured uncollateralized deposits of \$350,266.

Concentration of Credit Risk

The Town does not have a policy for concentration of credit risk. No Town investment represents 5% or more of the total investments.

3. Receivables and Deferred Inflows of Resources

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred inflows of resources reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>	<u>Total</u>
Property taxes receivable for subsequent year	\$ -	\$ 717,717	\$ 717,717
Other special charges	130,861	-	130,861
Total Deferred Inflows of Resources			
For Governmental Activities	130,861	717,717	848,578
Special assessments not yet due	102,883	-	102,883
Total Deferred Inflows of Resources			
For Governmental Funds	<u>\$ 233,744</u>	<u>\$ 717,717</u>	<u>\$ 951,461</u>

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

4. Long-Term Obligations

All general obligation notes and bonds payable are backed by the full faith and credit of the Town. Notes and bonds will be retired by future property tax levies accumulated by the general fund. The following is a summary of long-term debt transactions of the Town for the year ended December 31, 2014:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
GOVERNMENTAL ACTIVITIES					
Bonds and Notes Payable					
General Obligation Debt	\$ 1,458,229	\$ 299,760	\$ 340,589	\$ 1,417,400	\$ 150,381
Sub-Total	<u>1,458,229</u>	<u>299,760</u>	<u>340,589</u>	<u>1,417,400</u>	<u>150,381</u>
Other Liabilities					
Vested Compensated Absences	21,803	3,401	-	25,204	-
Total Other Liabilities	<u>21,803</u>	<u>3,401</u>	<u>-</u>	<u>25,204</u>	<u>-</u>
Total Governmental Activities					
Long-Term Liabilities	<u>\$ 1,480,032</u>	<u>\$ 303,161</u>	<u>\$ 340,589</u>	<u>\$ 1,442,604</u>	<u>\$ 150,381</u>

Debt obligations by issue are as follows:

Original Amount	Date of Issue	Maturity Date	Interest Rate	Outstanding Principal	Amount Due Within One Year
General Obligation Notes:					
\$ 300,000	7/2/2007	3/1/2019	2.95%	\$ 97,562	\$ 18,406
\$ 48,309	3/1/2013	3/1/2023	2.98%	44,090	4,344
\$ 375,000	7/2/2009	3/1/2019	2.98%	198,938	37,501
\$ 404,000	3/1/2010	3/1/2017	2.95%	97,554	31,604
\$ 187,448	7/2/2007	3/10/2017	2.95%	61,645	19,971
\$ 950,000	5/1/2013	3/1/2033	3.75%	891,805	34,523
\$ 30,000	5/13/2013	3/1/2020	2.78%	25,806	4,032
Total general obligation notes and bonds				<u>\$ 1,417,400</u>	<u>\$ 150,381</u>

Total interest expense on long-term debt in 2014 was \$33,171.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

4. Long-Term Obligations (Continued)

In accordance with Wisconsin Statutes, total general obligation indebtedness of the Town may not exceed five percent of the equalized value of taxable property within the Town's jurisdiction. The debt limit as of December 31, 2014 was \$10,558,140 Total general obligation debt outstanding at year-end was \$1,417,400.

Debt service requirements to maturity are as follows:

<u>Years</u>	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2015	\$ 150,381	\$ 48,977
2016	154,981	44,381
2017	159,835	39,394
2018	108,710	34,377
2019	112,115	30,855
2020-2023	731,378	98,105
Totals	<u>\$ 1,417,400</u>	<u>\$ 296,089</u>

5. Employees' Retirement System

All eligible Town employees participate in the Wisconsin Retirement System (WRS), a cost-sharing, multiple-employer, defined benefit, public employee retirement system. All employees, initially employed by a participating WRS employer prior to July 1, 2011, expected to work over 600 hours a year (440 hours for teachers and school district educational support employees) are eligible to participate in the WRS. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS. Note: Employees hired to work nine or ten months per year, (e.g. teachers contracts), but expected to return year after year are considered to have met the one-year requirement.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

5. Employees' Retirement System (Continued)

Covered employees are required by statute to contribute one-half of the actuarially determined contribution rate for General category employees, including Teachers, and Executives and Elected Officials. Required contributions for protective contributions are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement. Contribution rates for 2014 are:

	<u>Employee</u>	<u>Employer</u>
General (including Teachers)	7.0%	7.0%
Executives & Elected Officials	7.75%	7.75%
Protective with Social Security	7.0%	10.10%
Protective without Social Security	7.0%	13.7%

The payroll for employees covered by the WRS for the year ended December 31, 2014 was \$159,034; the employer's total payroll was \$180,607. The total required contribution for the year ended December 31, 2014 was \$23,034, which consisted of \$11,517 or 7.2% of covered payroll, from the employer and \$11,517 or 7.2% of covered payroll, from the employee. Total contributions for the years ending December 31, 2013 and 2012 were \$121,584 and \$19,587 respectively, equal to the required contributions for each year.

Employees who retire at or after age 65 are entitled to receive a retirement benefit. Employees may retire at age 55 and receive actuarially reduced benefits. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor. Final Average Earnings is the average of the employees' three highest years' earnings. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefit. For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 are immediately vested. Participants hired after June 30, 2011 are fully vested after five years.

The system also provides death and disability benefits for employees. Eligibility for and the amount of all benefits is determined under Chapter 40 of the state Statutes. The WRS issues an annual financial report, which may be obtained by writing to the Department of Employee Trust Funds, P.O. Box 7931, Madison, WI 53707-7931.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

6. Fund Balances

Fund balances as of December 31, 2014 include the following items:

<u>General Fund</u>	<u>Restricted</u>	<u>Assigned</u>	<u>Committed</u>	<u>Unassigned</u>
Conservancy	\$ 2,266	\$ -	\$ -	\$ -
Equipment	-	164,777	-	-
Pre-Development	-	19,242	-	-
Commercial Water	-	12,695	-	-
Employee Earned Benefits	-	20,691	-	-
Building	-	126,585	-	-
Hickory Lane	-	52,431	-	-
Maier Road Assessments	-	2,768	-	-
Other general assignments	-	46,420	-	-
Unassigned	-	-	-	423,058
Total General Fund	<u>\$ 2,266</u>	<u>\$ 445,609</u>	<u>\$ -</u>	<u>\$ 423,058</u>

	<u>Restricted</u>	<u>Assigned</u>	<u>Committed</u>	<u>Unassigned</u>
<u>Utility District No. 1</u>				
Committed for Utility District expenditures	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 52,089</u>	<u>\$ -</u>
<u>Utility District No. 2</u>				
Committed for Utility District expenditures	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 76,266</u>	<u>\$ -</u>

7. Excess of Expenditures over Appropriations

For the year ended December 31, 2014, expenditures exceeded budget as follows:

<u>Fund/Department</u>	<u>Excess</u>
General Fund:	
Public Safety	\$ 4,126
Conservation and Development	\$ 10,399
Capital Outlay	\$ 7,348
Principal Repayment	\$ 162,281
Interest Expense	\$ 31,440

Revenues and fund balances were sufficient enough to cover the expenditures. Public safety expenditures exceeded the budget because of inspection fees were higher. Room tax collections increased the amount of conservation and development. Debt service expenditures were offset by special assessment revenues.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

8. Commitments and Contingencies

Funding for the operating budget of the Town comes from many sources, including property taxes, grants and aids from other units of government, user fees, fines and permits, and other miscellaneous revenues. The State of Wisconsin provides a variety of aid and grant programs which benefit the Town. Those aid and grant programs are dependent on continued approval and funding by the Wisconsin governor and legislature, through their budget processes. Any changes made by the State to funding or eligibility of local aid programs could have a significant impact on the future operating results of the Town.

9. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers' compensation; and health care of its employees. All risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded commercial insurance coverage in any of the past three years.

10. Joint Ventures

Waunakee Area Emergency Medical Service District

The Towns of Vienna, Dane, Springfield, and Westport and the Villages of Dane and Waunakee jointly operate the local EMS district, which is called the Waunakee Area Emergency Medical Service District, which provides ambulance and rescue service. The communities share in the annual operation of the district based on population.

The governing body is made up of board members from each community. Local representatives are appointed by the local board. The governing body has authority to adopt its own budget and control the financial affairs of the district.

The Town's expenditures for services totaled \$1,289.04 to the district for 2014.

The Town believes that the district will continue to provide services in the future at similar rates.

Financial information of the district as of December 31, 2014 is available directly from the district's office.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

10. Joint Ventures (Continued)

Waunakee Area Fire District

The Towns of Vienna, Springfield, and Westport and the Village of Waunakee jointly operate a fire district, which is called the Waunakee Area Fire District, which provides fire protection service. The communities share in the annual operation of the district based on the ratio of equalized values of each member.

The governing body is made up of board members from each community. Local representatives are appointed by the local board. The governing body has authority to adopt its own budget and control the financial affairs of the district.

The Town's expenditures totaled \$6,321 to the district for 2014.

The Town believes that the district will continue to provide services in the future at similar rates.

Financial information of the district as of December 31, 2014 is available directly from the district's office.

Dane-Vienna Fire District

The Town of Vienna, along with the Town of Dane and the Village of Dane, has established the Dane-Vienna Fire District for the purpose of providing fire protection and first responders on medical calls to the three entities. Each entity appoints members to the governing board. The Fire District's operating and capital budgets are funded by the three entities based upon their equalized values.

The Town's share of the Fire District's 2014 costs amounted to \$8,021.

DeForest Fire Protection District

The Town of Vienna, along with the Village of DeForest and the Townships of Windsor, Leeds, and Hampden entered into an agreement to create the DeForest Fire Protection District. This agreement was executed on April 15, 1993 and amended in 1997.

The agreement specified that fire protection should be available to the above-mentioned municipalities. Each municipality appoints a representative to the Fire District Board. Costs are to be shared based upon the equalized values of the respective municipalities. Any participating municipality may withdraw from the District provided 18 months written notice is given to the other municipalities and the Fire District. The withdrawing municipality is due their equity interest in the Fire District equipment and assets less any proportionate share of debt and lease expenditures due. There is no equity interest recorded since the cost basis is immaterial and the outstanding debt and leases expenditures of the District offset the assets.

The Town's share of fire district costs in 2014 amounted to \$72,482, excluding fire insurance dues of \$5,068.

TOWN OF VIENNA
Notes To Financial Statements
December 31, 2014

10. Joint Ventures (Continued)

DeForest Area Community Center

The Town of Vienna together with the Town of Windsor and the Village of DeForest entered into an agreement regarding the programs and operation of the DeForest Area Community Center. The agreement was executed on July 6, 1993.

The agreement specifies that the Community Center is to be governed by a nine (9) member commission including one member of the Town of Vienna Board of Supervisors and one (1) Town resident appointed by the Town Chairperson. Costs are to be shared by the municipalities based on the populations of the respective municipalities.

The Town's share of Community Center costs in 2014 amounted to \$17,440.

Waunakee Senior Center

The Town has an agreement with the Village of Waunakee to provide support to the Waunakee Senior Center. The Town pays for its proportionate amount of shared costs based upon its percentage of the consumption of services in the previous year.

The Town paid \$795 in 2014.

11. Long-Term Contracts

The Town has entered into a sewerage contract with the Madison Metropolitan Sewerage District (MMSD) under which the Town agrees to purchase substantially all of its future sewage services from the MMSD. MMSD is not a joint venture operation. It is governed by its own Board of Directors and is not governed by the municipalities that are served by it.

12. Effect of New Accounting Standards on Current Year Financial Statements

The Governmental Accounting Standards Board (GASB) has approved GASB Statement No. 68 – Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, and GASB Statement No. 71 – Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. Application of these standards may require restatement of portions of these financial statements.
